VETERINARY SURGICAL LIGHT

Finally, a professional surgery light,
conceived, designed and manufactured entirely for vets.

GOLDEN SINGLE

GOLDEN TWIN

GOLDEN TROLLEY

Specifications

GOLDEN

Illumination Ec at 1 m +/- 10%	160,000 lux
Colour temperature [K]	4,000 – 4,600
Colour rendering index Ra [-]	95 Ra
Light field diameter d10 [mm] (D)	260
Light field adjustment – to – [mm]	110 – 350
Lighting depth L1+L2 [cm] at 60%	81
Max radation [W/m ²]	556
Irradiance / Illumination [mW/m ² lx]	3.47
Max radation in UV [W/m ²]	0.002
Primary alternate voltage [Volt ac]	0.100 – 240
Frequency [Hz]	50 / 60
Absorbed power [VA] Power Consumption [W]	71VA 65W
Light source	No. 81 LEDs
LED life	50,000h*
Light intensity control [%]	25 – 100

*figure will vary according to power peaks and operating frequency
