PLANET LIGHTING

UNO PANEL

Uno Panel is the ideal toolless mounting solution for the Uno: Planet Lighting's all-in-one housing, controller and power supply. Designed for Uno, Uno Panel provides quick and easy installation, replacement or removal of your Uno units and is available in a range of clamps and bracket kits to secure to any sea cage design.

REMOTE GEAR
Uno Panel is part of Planet Lighting's unique Focus sea cage lighting system. Gear is mounted at the cage rail to minimise equipment inside the cage, and to allow optimal protection and serviceability.
OPTIONS
- AC Plug Board options are available to suit various electrical connections (see below).
- A range of sea cage bracket kit solutions are available (see page 2).

## APPLICATIONS
Sea Cage Aquaculture

Uno Panel is designed exclusively for easy install, replacement and removal of Planet Lighting Uno housings

Easy, toolless design

Clamps and bracket kits to suit any cage design
AC Plug Board options (see below)

Strain relief carabiners on the Focus 600 sea cage light snap into place on the Uno Panel. Marine and AC cable runs are designed with drip loops to keep water away from connections.

PLANET LIGHTING
